LNG file, but since that's not changing anything in Office (still showing German proofing as 'not installed'), is there something else that needs to be moved, or updated?.. ' That link looks like the German translation of the one I posted above Daniel's first link looks promising as well.. It is useful especially for people who either want to use Office 2010 in their own language or want to use a multilingual setup so that they can work with multiple languages at the same time in Office 2010 installation.. The differences in Microsoft Office 2003, 2007, and 2010 mean that each version may support a particular.. If you are using Windows 7 or a 64-bit machine with Firefox 3 6, you may need to.
